

Fungi in Chigwell Row Wood 2009

Species noted in CR woods, August – November 2009

Silky Rosegill	Vovariella bombycina
Beefsteak	Fistulina hepatica
Clustered Toughshank	Collybia confluens
Tawny Toughshank	C. dryophila
Buttercap	C. butyracea
Purple Brittlegill	Russula atropurpurea
Yellow Brittlegill	R. ochroleuca
Smoky Bracket	Bjerkandera adusta
Hairy Curtain Crust	Stereum hirsutum
Turkeytail	Tremetes versicolor
Red Cracking Bolete	Boletus chrysenteron
Matt Bolete	B. pruinatus
Fly Agaric	Amanita muscaria
False Deathscap	A. citrina
Sulphur Tuft	Hypholoma fasciculare
Spiny Puffball	Lycoperdon echinatum
Brown Rollrim	Paxillus involutus
Honey Fungus	Armillaria mellea
-	A. cf.borealis
Lilac Bonnet	Mycena pura
Clustered Bonnet	M. inclinata
Angels Bonnet	M. arcangeliana
Clouded Funnel	Clitocybe nebularis
Tawny Funnel	Lepista flaccida
Brown Rollrim	Paxillus involutus
Candle Snuff	Xylaria hypoxylon
Beech Barkspot	Diatrype disciformis
Beech Woodwart	Hypoxylon fragiforme
Branching Oyster	Pleurotus cornucopiae
Oakbug Milkcap	Lactarius quietus
Birch Polypore	Piptoporous betulinus
Wood Mushroom	Agaricus silvicola
Common Stump Brittlestem	Psathyrella piluliformis

The following were on the recreation ground : -

Yellowleg Bonnet	Mycena epipterygia
Brownedge Bonnet	M. olivaceomarginata
Orange Moss-cap	Rickenella fibula
Collared Moss-cap	R.swartzii
-	Entomola conferendum
Veiled Poisonpie	Hebeloma mesophaeum
