

ERRATA NOTE – EFDC Annual Monitoring Report 2007

Please be aware that, unfortunately, two errors have been made in EFDC's 2007 AMR.

1. **Chart 2 – Housing Trajectory**, on page 24 has an error in it. The figures shown for the years 2007/08, 2008/09, 2009/10, 2010/11, 2011/12, 2012/13 and 2013/14 are all incorrect. Please note that this is only an error in the graphical representation of the figures. All the housing provision calculations within the AMR are correct and unchanged. Please substitute the existing page 24 with the correct, amended page 24 shown below.
2. The first line of the table comprising **Appendix 2: Details of Housing Completions 2006/07**, on page 45 has a small error in it. For this first line, which shows the details of planning application number EPF/1537/04, the '**Dwellings lost 06/07**' and '**Dwellings completed 06/07**' columns should both read '**4**' and not '**2**'. Please note that these two figures still result in a '**Net dwellings completed 06/07**' figure of zero, and so no calculations are affected in any way.

Chart 2 – Housing Trajectory
