

List of Buildings of Local Architectural or Historic Interest

NORTH WEALD PARISH

1. MILESTONE	<i>Epping Road</i>	Late 18th century stone milestone with inscription 'London 19' to chamfered top, 'Epping 3' to LHS and 'Ongar 4' to RHS. Most likely re-sited. Of historical and aesthetic interest.
2. 42	<i>High Road</i>	Early 19th century rendered dwelling. 2 storeys under pitched roof. Mostly likely 2 rooms deep. End chimney stacks and one to rear. Has been altered and included primarily for historic value as one of the few survivors of vernacular architecture in the Parish.
3. BRICKFIELD COTTAGES	<i>High Road, Thornwood</i>	Brickfield Cottages are adjacent to the site of the former Wintry Park Brick & Tile Works. Built in the mid 19th century, this terrace of currently eight, but originally ten, houses have rendered brick walls and tiled roofs. Each originally had one window on the ground and first floors of the façade with a door under the blank part of the upper storey wall: the windows were probably originally sashes with small panes. To the rear of each house there are brick built sheds and weather-boarded outbuildings both under tiled roofs. The outbuildings contained ranges and coppers, still extant at the rear of no. 6. A separate shed at the rear of no. 2 still has the communal bake house. Of significant historic and aesthetic merit.
4. THE CROSS KEYS PUBLIC HOUSE	<i>High Rd, Thornwood Common</i>	Complex multi-phase building. Originally dates from c1700, formerly a blacksmith's shop; became an alehouse in 1732. The ability to understand the building's evolution from the existing fabric contributes to its significant historic & aesthetic value. A number of unfortunate later alterations. Currently vacant and in poor condition.
5. THE SHRUBBERY	<i>High Rd, Thornwood Common</i>	Large red brick Victorian house, built 1889 in an Arts and Crafts influenced style. Informal architectural character defined by asymmetry and pronounced gables. A good example of domestic architecture of the period. Of aesthetic interest.
6. 1 & 2 STONE COTTAGES	<i>High Road, Thornwood</i>	Pair of 2 storey 19th century cottages in flint stone with brick accents. Pitched roof which retains traditional handmade plain clay tiles. A good example of vernacular architecture. Replacement uPVC windows throughout. Of historic and aesthetic value.
7. MILESTONE	<i>High Road</i>	Badly damaged late 18th century stone milestone with inscription 'Epping 2' to LHS and 'Ongar 5' to RHS. Has been re-sited. Of historical and aesthetic interest.

8. NORTH WEALD STATION	<i>Station Road</i>	Red brick station building, built c1868 by Eastern Counties railway in a distinctive railway Italiante style. Good quality brickwork in the form of projecting brick quoins and yellow brick window heads. Of historic and aesthetic value.
9. WHITE FRIARS (ROMALPA)	<i>Vicarage Lane</i>	Large painted brick dwelling, 19th century. Symmetrical balanced garden elevation with central pediment. Hipped roof retaining hand made plain clay tiles. Of historic and aesthetic value.
